PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Department.

The following Bill was introduced in the Legislative Assembly on the 4th September 1928:—

L. A. BILL No. 27 OF 1928.

A Bill further to amend the Indian Succession Act, 1925, for a certain purpose.

WHEREAS it is expedient further to amend the Indian Succession Act, 1925, for the purposes hereinafter appearing; It is hereby enacted as follows:— XXXIX of 1925.

Short title.

1. This Act may be called the Indian Succession (Amendment) Act, 1928.

Amendment of section 213, Act XXXIX of 1925.

2. In sub-section (2) of section 213 of the Indian Succession Act, 1925, for the word and figures "section 57" the words, figures and brackets "[illegible] section 57" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The Indian Succession (Amendment) Act, 1926 (XXXVII of 1926) was passed with a view to give effect to the recommendation of the Civil Justice Committee that all wills made by Hindus, Buddhists, Sikhs and Jains, even in areas outside those where section 57 of Act XXXIX of 1925 is in force, should be required to be reduced to writing, signed and attested. But it was not intended that the requirement of probate or letters of administration should apply to such wills. The new provision was inserted as clause (2) of section 57. No corresponding change was, however, made in section 213 exempting the wills specified in clause (2) of section 57 from the requirement of probate or letters of administration. The present Bill gives effect to the original intention and excludes wills falling under clause (2) of section 57 from the operation of clause (1) of section 213 by amendment of sub-section (2) of the latter section.

The following Bill was introduced in the Legislative Assembly on the 4th September 1928 —

L. A. BILL No. 29 OF 1928

A Bill further to amend the Indian Penal Code for a certain purpose

WHEREAS it is expedient further to amend the Indian Penal Code for the purpose hereinafter appearing. It is hereby enacted as follows — XLV of 1860.

Short title

1. This Act may be called the Indian Penal Code (Amendment) Bill, 1928

Amendment of section 505, Act XLV of 1860

2. In section 505 of the Indian Penal Code, after clause (c) the following clause shall be inserted, namely - XLV of 1860

" or

(*d*) with intent to promote, or which is likely to promote, unfriendly relations between His Majesty's Government and the Government of any Foreign State "

STATEMENT OF OBJECTS AND REASONS

This Bill is designed to fill a dangerous gap in the Indian law, the existence of which has recently been revealed. There is no provision in the Indian Penal Code which penalises statements made with the intention of, or which are likely to have the effect of, interfering with the peaceful relations between India and a foreign country. The Bill adds a clause to section 505 of the Indian Penal Code, under which prosecution cannot be undertaken without sanction under section 196 of the Code of Criminal Procedure 1898. The benefit of the existing exception under section 505 will of course be available to persons charged under the clause added by by this Bill

Draft Order.

Preliminary.

1 This order may be called the Rivang-Kalimpong Ropeway Order

3 The ropeway authorised by this order for the carriage of goods from Rivang to Kalimpong, in the district of Darjeeling, shall be constructed, maintained and worked subject to the provisions of the Act, or the rules from time to time in force under the Act and of this order and of any other order or orders, rules or regulations from time to time made or prescribed in connection with the working of the Rivang-Kalimpong Ropeway

4 No powers or rights shall be deemed to have been conferred on the promoters or to have been relinquished by Government except as in this order expressly provided

5 Messrs Gillanders Arbuthnot and Company shall be the promoters for the purposes of this order, and are in this order referred to as the promoters

Construction of Ropeway.

6 The promoters shall raise the capital required for the construction of the ropeway within a period of twelve months from the date of the confirmation of this order authorising the construction, and the construction shall commence within two years from the date of the confirmation of the order

7 Within a period of eighteen months from the date of the commencement of the construction of the ropeway the promoters shall, in accordance with the provisions specified in this order, and also in accordance with plans and sections to be deposited by the promoters and to be approved by the Government of Bengal, construct and maintain the ropeway hereinafter described with all proper establishments, trestles, ropes, stations, offices, carriers and conveniences connected with the ropeway or required for the purpose thereof

8 In the event of the said promoters failing to raise the capital required or to commence construction and to complete and equip the ropeway as provided in clauses 6 and 7 within the time specified, or within such further period as may be allowed for the purpose by the Government of Bengal, then and in any such case the said Government shall be at liberty to revoke this order

9 In the event of this order being revoked by reason of the promoters failing to complete and equip and open for traffic the said ropeway within a period of three years and six months from the date of this order, or within such further period as may be allowed for the purpose by the Government of Bengal, the said Government shall have the option of taking over the ropeway and carriers or parts thereof at a reasonable valuation to be determined by the said Government

If, however, the Government of Bengal do not desire to exercise the option of taking over the ropeway and the carriers or parts thereof as herein provided, then and in such case the ropeway may be dealt with under the provisions of the Act relating to the discontinuance of an aerial ropeway which has been proved to the satisfaction of the Government

10 The ropeway authorised by this order is of the mono-cable type with detachable carriers within the district of Darjeeling, starting from Rivang to Kalimpong with a total length of 7¼ miles approximately and with a carrying capacity of 12½ tons per hour both ways

11 The [illegible] may use free of cost for the construction of the ropeway an area of about 15½ acres of Government *khas* land to be described in a Schedule to be published hereafter, but such portions of the said area as lie in forest land shall remain reserve forest

12 In the event of the profits of the company on the working of the ropeway exceeding 5 per cent on the capital expended, the Government of Bengal reserve to themselves the right to require payment of rent for the land actually in occupation of the company at such rate as may be mutually agreed upon between the said Government and the promoters

13 Such additional land as may be required by the promoters and deemed by the Government of Bengal to be necessary for the purposes of the ropeway shall be either acquired by the Government of Bengal on behalf of the promoters under the Land Acquisition Act, 1894 and the cost of acquisition shall be met by the promoters, or sold or leased by the said Government, on such terms as may be determined by them, to the promoters The promoters shall not, without the consent of the Government of Bengal, sell or otherwise dispose of any land of which they may have been put in possession by the said Government for the purposes of the ropeway when such land is no longer required for such purpose

14 The ropeway shall be constructed in accordance with drawings to be approved by the Government of Bengal, and the factor of safety in all cases except in anchorages or foundations shall not be less than 4 For foundation anchorages it shall be sufficient if the moment of resistance of the foundation exceeds the overturning moments by 50 per cent The factor of safety of 4 shall be obtained in the case of the rope by dividing the actual breaking stress of the rope by the maximum direct tension to which it will be subjected Station gears, trestles and sheaves shall be so designed and placed that lubrication can be performed safely whilst the ropeway is in motion, and the speed of the rope shall not exceed 180 yards per minute

15 The minimum clearance of the ropeway from the ground except within station limits shall be 12 feet, and if in any place this clearance is less it will be open to the Government of Bengal to call upon the promoters to provide at the promoters' expense within 3 calendar months fencing on both sides of the ropeway for such length where the clearance is less than 12 feet, and the promoters shall be bound to comply with all such requisitions

16 The promoters shall, at their own cost, construct and maintain all such stations, trestles, sidings and all other works in addition to those specified in or authorised by this order and shall also employ and maintain all such establishments in addition to those specified in or authorised by this order as the Government of Bengal may from time to time consider to be expedient for the safe and efficient working of the ropeway or for the convenience and safety of the public All such additional works shall be completed to the satisfaction of the said Government, and all the provisions of this order shall so far as applicable apply to such works

Motive power, speed and signals.

17 The carriers used on the ropeway may be moved by steam power, and all driving stations shall be fitted with hand or automatic breaks to keep the speed of the rope within the maximum limit of 180 yards per minute

18 For the purpose of giving signals the promoters shall instal telephones at all terminal and intermediate stations which will enable the ropeway to be stopped at any instant

Maintenance and working of Ropeway.

19 The promoters shall at all times maintain and keep in good condition and repair to the satisfaction of the Government of Bengal or of any officer duly authorised in this behalf by the said Government, the entire ropeway carriers and appliances and shall work the same in such manner as will, in the opinion of the said Government or of such officer as may be authorised in this behalf by the said Government, avoid all risks of danger or annoyance to the public

20 The undertaking and all works stock, appliances and accounts appertaining thereto shall at all times be open to inspection and examination by any officer or officers whom the Government of Bengal may authorise for that purpose, and the promoters shall afford all reasonable facilities for inspection or examination to such officer or officers

21 If, as a result of inspection of the ropeway or any portion thereof, or of any carriers used thereon, the officer making the inspection under clause 20 reports to the Government of Bengal that the ropeway or any part thereof cannot be used without danger to the public, or is no longer in a fit state for the carriage of any specific class of traffic, the said Government may direct that the ropeway or a portion thereof shall be closed to all traffic or to any specified class of traffic

22 When the ropeway or any portion of it has been closed under clause 21 it shall not be reopened for the public conveyance of goods unless and until it has been inspected again by the officer referred to in clause 20 or any other officer authorised in this behalf and its opening is sanctioned by the Government of Bengal as a result of such inspection

23 When the Government of Bengal have under clause 21 prohibited the use of any carrier, the said carrier shall not be used again with[illegible]nction by the said Government

24 The promoters shall not, without the consent of the Forest officer in charge of the district, cut down or lop any tree growing along or by the side of the ropeway, provided that in case of emergency the promoters may remove or lop branches or any portion of a tree which stands in such a manner as to be a source of danger or impediment to the ropeway traffic, and in any such case they shall without loss of time report their action for confirmation by the Forest officer

Traffic and traffic working.

25 The ropeway may be used for the purpose of conveying goods traffic only All goods which will not, in the opinion of the ropeway management and of the Government of Bengal, interfere with the proper and safe running of the ropeway or the safety of the staff or public shall be carried, but the management shall have the right to refuse to carry such goods as are dangerous or obnoxious, or beyond the capacity of the ropeway At the outset the maximum rate for the carriage of goods is fixed at six annas per maund, but the Government of Bengal reserve the right to increase or lower this rate.

Miscellaneous.

26. The Government of Bengal, or a local authority with the previous sanction of the said Government, shall, by giving to the promoters previous notice in writing of not less than two years, have the option to purchase the ropeway referred to in section 24 of the Act, either on the 31st day of March 1946, or on the 31st day of March in the last year of any subsequent period of ten years on payment of the value of all lands, buildings, works, materials, plant and apparatus of the promoters, suitable to, and used by them for purposes of the undertaking *plus* 20 per cent of the value.

27. The promoters are authorised to transfer their entire rights in this undertaking to any other Company to be floated for the purpose of constructing and working the ropeway, and the consideration for such transfer shall be limited to the extent of the actual money spent by the promoters on this undertaking and in obtaining this order.

28. In case it be hereafter found that any portion of the alignment adopted by the promoters for the ropeway interferes with the location of any new lines of railway or roadway or the extension of any existing line of railway or roadway, the alignment occupied by the ropeway shall be forthwith, at the request of the Government of Bengal, abandoned in favour of the railway or the roadway, and the ropeway shall be diverted or altered in such way and in such manner as shall appear to the Inspector or other officer duly appointed in this behalf by the said Government to be fair and proper, provided that the actual cost incurred in this connection shall be borne by the authorities of the said railway or roadway.

29. In the event of any work required by the Act or by this order to be done by the promoters not being done by them, the Government of Bengal may cause a notice to be served on the promoters requiring them within a period to be prescribed in the said notice to execute the said work, and if within the period so prescribed such requisition is not complied with, the said Government may cause such work to be done and the cost thereof to be recovered from the promoters. The certificate of the Inspector or other officer appointed by the Government of Bengal in this behalf shall be conclusive evidence that all expenses referred to in such certificate have been incurred in carrying out such work and the promoters shall not be at liberty to dispute the same.

30. The promoters shall adopt and apply all such improvements in the ropeway and in the carriers and appliances thereon as the Government of Bengal may from time to time consider necessary or desirable for the safety or convenience of the public.

31. The promoters shall provide without unreasonable delay such statistics relating to the ropeway or to the traffic thereon as may time to time be required by the Government of Bengal.

32. It is hereby expressly provided that no concession granted under this order confers on the promoters any exclusive right as carriers over any part of the tract traversed by the ropeway.

Arbitrations.

33. (1) If any dispute, question or controversy shall at any time arise either between the Government of Bengal and the promoters or the local authorities and the promoters touching this order, or any clause or thing herein contained, or the construction hereof or any matter connected with this order, or the operation of the same or the rights, duties or liabilities of any of the parties in relation to the premises, then, and in every such case the matter in difference, unless special provision shall have been made in this order for the settlement of the matter so in difference shall be referred to two arbitrators or to an umpire to be appointed by them, pursuant to and so as with regard to the mode and consequences of the reference, and in other respects to conform to the provisions in that behalf contained in the Code of Civil Procedure, 1908, so far as the same may be applicable.

The time allowed for silent reading will be increased, but it will be carefully supervised and tested by the teacher. The aims should be to give pupils a liking for good books and the power of reading them intelligently and quickly.

The regular use of the dictionary should be encouraged. The importance of the clear understanding of the main ideas of a lesson in comparison with the explanation of difficult words should be borne in mind.

There should be one reader for detailed study and reading aloud, and at least four others for silent reading.

Poetry.—As in Class VII, with more difficult poems. Both teacher and pupils should still read poems aloud. A minimum of 120 lines of poetry should be learnt by heart during the year.

Composition.—General class conversation on the coming composition should be continued. Composition exercises should be varied and may include the summaries of lessons, expansion and condensation of ideas, descriptions of games, imaginary conversations, and stories made up from pictures. More difficult exercises in the development of outlines.

Pupils should be set to get their own information unaided, and to use books of reference.

Ordinary business and formal letters and the answering of enquiries and advertisements.

Grammar.—Derivative adjectives in common use and sentences containing them ক্ত and অসিদ্ধ। Conversion of sentences from one form to another, e.g., from simple to complex, from compound to complex, etc. Expression of ideas in a sentence in different ways. Use of the same word as different parts of speech. Common errors in speech. Differences between Bengali and English grammar. Accent, pauses, metre and grammatical peculiarities in connection with Bengali poetry. Simple figures of speech.

Translation.—Paragraphs from the English text-books should be rendered into idiomatic Bengali, simple Bengali sentences should be insisted upon, regular and systematic exercises should be given.

CLASSES IX AND X

Head Masters should draw up their own Syllabuses for Classes IX and X guided by the Syllabus for the Matriculation Examination of Calcutta University.

The following should be kept in mind when drawing up the Syllabuses:—

(1) Reading aloud of standard pieces of prose and poetry by both teacher and pupils should be continued.

(2) Books for silent reading should be carefully chosen, the pupils are thus guided towards a taste for real literature.

(3) In silent reading the pupils should acquire skill in the rapid extraction of meaning from the printed page.

(4) The writing of composition and essays should be on subjects within the powers of the pupils. The language should be of a simple character and grammatically correct. Headings should sometimes be given on the black-board, but pupils should be encouraged to collect their own information from books or from works of reference.

(5) Little attention should be given to complex grammatical rules. An accurate knowledge of Bengali will be gained more easily by careful practice in reading, writing and speaking Bengali than by mere knowledge of grammatical theory.

(6) Translation of both kinds should be practised as a preparation for future professional or commercial duties.

1 In the two previous years the pupils will have mastered the drawing and construction of models involving plane surfaces with various shapes of perimeter, and models involving curved surfaces in one plane In this class, he should now proceed to construct models involving combinations of the above This year's course should also include a number of working models

2 The following models are suggested —

Folding camp stool and folding deck chair with any suitable cotton material for seats and pins for hinges, hand lanterns of different shapes, house with steps, plinth verandahs, doors, windows and roof, simple brick or masonry railway bridge, a sun-dial properly graduated, palki, country-boat with sculling oar, agricultural plough

3 The following working models are suggested —

Weighing scales see-saw, swing, wheelbarrow, gharry, motor-car railway truck, pull-punkah windmill railway signal child's perambulator

CLASS VI

1 [illegible] and modelling involving the use of other materials than cardboard, such as wood, sticks, wire, string and pins may be introduced

2 The following models are suggested

Folding household steps, bed with plank top and mosquito poles, rocking chair

3 The following working models are suggested —

Cycle, railway locomotive, country-boat with sails, paddle steam-boat, working crane with pulley blocks, wheel and axle for raising water buckets from a well, bullock cart, oil pressing mill, sugarcane crushing mill surki mill

4 The pupils might collectively construct all the models comprising a railway station including railway sleepers and rails, signals, platforms, booking and station offices, gates, bridges, locomotives and rolling stock A small part might be carried out by each pupil on a predetermined scale, and the whole finally pieced together

The same idea might be applied to a market place, village street, etc.

CLASS VII

1 The syllabus for this year should be chiefly concerned with wood strip work and should have a bias towards carpentry so as to be introductory to the carpentry courses of the following three years

2 Models should, however, be constructed involving a use of all the materials of construction used in the preceding years Any other suitable and available materials may also be pressed into use such as wood, thin turned metal sheets which can be cut and manipulated almost as easily as cardboard and joined at the edges by folded seams, and sheet glass which can be easily cut and used for windows Portland cement and sand may be used in the walls of model houses bridges, etc

3 The following models are suggested —

Letters of the alphabet with straight limbs only, post and rail wooden fences, wooden gates, various wooden roof trusses of the well-known types, lattice girder bridge, wooden photograph frame, wooden picture frame, models of buildings such as cowsheds, cookhouse, bungalow, masonry or brick bridges

4 Corrugated iron sheds or godowns should also be made, and brick and mud used for the internal part of masonry

5 Iron rails and standards should be made from the wire and corrugated iron out of the tinned sheet, doors, wooden frames and woodwork out of the wood strips, and the sheet glass cut to size and used in the windows

Thatched roofs can be made from dried grass or coconut fibre

6 In cutting, fitting, joining and nailing the woodwork, the pupil should be shown how to use the tenon saw and sawing block, straight edge, marking knife, measuring rule, hammer, nails and trysquare, and how to finish smooth with glass paper

CLASS VIII

Woodwork.

1 Preliminary drawing lessons showing the proper use of the drawing board, teesquare, setsquares, scales, compass, pencils, papers and drawing-pins In each lesson there should be a definite connection between the drawing demonstration and benchwork

2 The drawing should be confined to plans, side views, sections and isometric projections, and the drawing course should be so arranged as to develop these in order of difficulty The pupil should be taught to use only the minimum number of views necessary (*e g*, an article may possibly be completely represented by a dimensioned isometric projection only)

3 The use of the following should be demonstrated —

Bench, footrule, steel rule, carpenters' pencil or mark knife, bench vice, tenon saw, rip saw, trysquare, benchsquare, trying plane, jack plane, smoothing plane, mallet, firmer chisels marking gauge, bradawl, carpenter's hammer, screwdriver, gimlet, glass paper, straight edge

Pupils should not be allowed to sharpen their own tools in this course

4 The making of definite models or woodwork articles should not be attempted by pupils until they have become familiar with the use of the above tools They should be given simple wooden test pieces about 12 to 15 inches long, and an inch or two in cross sectional dimensions These pieces should always be a little longer than the dimensions intended for the finished piece and should be rough sawn only

5 The execution of the test pieces should involve the following operations —

Sawing and marking by pencil and square or by gauge, planing, trying, squaring, smoothing, levelling and grooving, making such carpentry joints as mortice and tenon

6 Towards the end of the year, the pupils may be allowed to make a few simple woodwork articles, such as simple bracket, soap-box, match-box stand, toothbrush rack, inkpot, stand, simple picture frame, wooden rulers, and pointers,

CLASS IX

1 The use of the few remaining carpenters' tools should be learnt, and the test pieces should consist of simple woodwork articles The pupils should work from dimensioned drawings supplied to them They should also be required to measure a few woodwork articles, draw their measurements to scale, and make reproductions of them

2 The chief remaining carpenters' tools are as follows -

Shooting board, wing compass, spokeshave, wood files and rasps, brace and bits, cramps, gauges, bow saw and rabbit plane, dovetail saw, nail punch, mortice chisels, holdfasts, grindstone, water and oil stones

3 The test pieces or models should also include the operations of glueing and pinning joints, the use of wire and screw nails, countersinking, panelling and cutting out designs with fret or bow saw, chamfering, beading and grooving

4 The pupils should be shown how to grind and sharpen their tools, and keep them in order

5 The following models or articles are suggested as test pieces —

Book-shelf, corner bracket, footstool, boxes of various kinds, camp stool deck chair, small tables of various kinds, flower-pot stand wooden tray, hanging shelves, wall plaques, drawing board teesquare, stationery case, curtain brackets and rods, water-pot stand

CLASS X

1 The pupils will continue to make woodwork articles, and they should be of a more advanced nature They will also learn how to embellish finish and polish them

2 The embellishment of woodwork articles by bevelling and chamfering beading, grooving, simple carving, panelling and piercing, glass papering and French polishing may be attempted in a simple way

3 The following test pieces or models are suggested —

Folding table, simple chair, fancy picture-frame, small medicine chest, nest of drawers for stationery or other purposes, cycle stand, hanging towel rail, fern box, wheelbarrow, wash-basin stand, wooden cradle

4 Any apparatus that would be useful in the school should also be constructed Such apparatus should include school rulers, pointers, drawing boards, gymnasium and drill apparatus such as bar bells, Indian clubs horizontal bar, parallel bars, ladder and vaulting horse

5 Simple examples of wood turning may also be executed by using the ordinary frame and bowstring arrangement as used in the bazars

CALCUTTA, THE 10TH DECEMBER 1928

RESOLUTION—No 13689A

READ—

Resolution of this Government, No 1646 A D dated the 21st June 1920
Letter No 426 A D, dated the 16th June 1922, to the Secretary, Superior Civil Service Association
Letter No 1666 1670 A D, dated the 15th September 1925, to all Commissioners of Divisions
Letter No 1026 1030 A D, dated the 31st May 1926, to all Commissioners of Divisions
Letter No 1422 A D, dated the 7th September 1926 to the Honorary Secretary, Bengal Junior Civil Service Association
Letter No 4617 4621 A, dated the 10th April 1926, to all Commissioners of Divisions

On the 3rd November 1927, a deputation of the Bengal Junior Civil Service Association waited on the Hon'ble Member in charge of the Appointment Department and the Chief Secretary to Government and explained the grievances of the service in respect of their pay, prospects, and status In particular, they asked that—

(1) the Bengal Junior Civil Service should be amalgamated with the Bengal Civil Service (Executive),

(2) Sub-Deputy Magistrates and Collectors should be eligible for the grant of higher magisterial and revenue powers,

(3) members of the Bengal Junior Civil Service should be called Additional Deputy Collectors instead of Sub-Deputy Collectors,

(4) a revised scale of pay should be introduced substituting a biennial increment of Rs 20 for the present triennial increment of Rs 25 with a selection grade on Rs 650 for six per cent of the total service

(5) the prescribed age-limit of 40 for promotions from the Bengal Junior Civil Service to the Bengal Civil Service (Executive) should be removed,

(6) the percentage of appointment made to the Bengal Civil Service (Executive) by promotions from the Bengal Junior Civil Service should be raised from 35 per cent to 75 per cent,

(7) increased pony allowances should be granted to members of the service on training in settlement,

(8) the amount of rewards payable to the members of the service for passing examinations in certain tribal languages should be raised

(9) house and travelling allowances of circle officers should be increased and that general permission should be granted to them to reside at the headquarters of districts and subdivisions

2 **Items (1) and (2)** above received the careful consideration of the Governor in Council in 1920 and 1926, and in this Government Resolution No 1646 A D dated the 21st June 1920, and circular letter to the Commissioners of Divisions No 1026-1030 A D, dated the 31st May 1926, it was announced that, for the reasons given therein, the two services, namely the Bengal Civil Service (Executive) and the Bengal Junior Civil Service, would be kept distinct from each other and that Sub-Deputy Magistrates and Collectors would not be vested with higher magisterial and revenue powers The deputation was informed that these decisions were final and that Government were not prepared to reopen the question

As regards **item (3)** the deputation was informed that if the Association could invent another name which was not open to objection, Government would consider it The Association has not, however offered any further suggestion As regards the other items the Association was informed that they would be examined and that the decisions arrived at would be announced later Government have now investigated these matters and their decisions are stated below

Item (4).—The Governor in Council is not prepared to entertain the proposal for a revision of the scale of pay, as the present scale does not compare unfavourably with the scales of other provinces, and the proposed substitution of a biennial for the existing triennial increment would involve large additional expenditure which in the present state of the provincial finances would not be justified

Item (5).—Government have decided that the age-bar for promotion to the Bengal Civil Service (Executive) shall be relaxed, but no officer who has not been recommended for promotion before he is 40 years of age will have his claims considered after he has attained that age A letter dealing with this point and prescribing a new procedure for the submission of recommendations for promotion will shortly issue to all concerned

Item (6).—Government are not prepared to entertain the proposal of the Association that the percentage of appointments made to the Bengal Civil Service (Executive) by promotions from the Bengal Junior Civil Service should be raised from 35 per cent to 75 per cent, but have decided that it shall be increased from 35 per cent to 50 per cent

Item (7).—Government have decided that the pony allowances of members of the Bengal Junior Civil Service, while on settlement training, shall be the same as those allowed to members of the Bengal Civil Service (Executive), and rule 165 (*a*) of the Survey and Settlement Manual will be amended to make this clear

Item (8).—The suggestion for increasing the rewards admissible on passing certain tribal language examinations has already been accepted and given effect to in Government notification No 199A, dated the 10th January 1928

Item (9).—Government do not consider that there are any grounds for increasing the travelling or house allowances of Sub-Deputy Collectors employed on circle work, and the existing rates will therefore stand The existing orders regarding the residence of Circle Officers within their respective circles will also stand

ORDER —Ordered that the Resolution be published in the *Calcutta Gazette* for general information

Ordered also that copies of the resolutions be forwarded to the Local Self-Government and the Revenue Departments of this Government and to the Bengal Junior Civil Service Association for information

By order of the Governor in Council,

RESOLUTION

New Delhi, the 28th November 1928

No S-465—In their Resolution No S 217, dated the 13th September 1928, which was published in Part I of the *Gazette of India* of the 15th September 1928, the Government of India announced their decision to replace the existing arrangements for the supply of articles required for the public service by a system of rupee tenders for delivery in India, and published for criticism the draft rules which had been framed to give effect to that policy

2 For the successful working of the Rupee Tender System it is necessary to provide expert advice in the matter of the preparation of technical projects, specifications and drawings and of the examination of tenders for technical stores, and also to establish an organisation which will enable purchasing authorities to ascertain the status and capacities of tendering firms abroad

3 The Government of India consider that Messrs Rendel, Palmer and Tritton who have for the past fifty years been employed as Consulting Engineers to the India Office and latterly to the High Commissioner for India in respect of numerous classes of stores, will be in the best position to afford the necessary service, and they have accordingly arranged with that firm for the establishment of a branch office in India

4 This office will be opened on or about the 1st December 1928 and will be located in the Tower House Building, Esplanade East Calcutta Its functions will comprise the following, among other services —

I *Supplies of technical stores*

(*a*) When required, to prepare specifications and drawings needed for certain classes of stores, or to furnish technical advice on specifications, etc prepared by the authorities concerned

(*b*) To advise on technical points in connection with the purchase of stores generally and in particular to advise if and when required, on tenders received for supply of technical stores

(*c*) To advise in regard to the capacity and standing of manufacturing firms abroad

II *Engineering Projects*

To advise in connection with the preparation and examination of technical projects, such as bridge designs, workshop layouts and engineering schemes generally

III *Standardisation*

To advise on the standardisation of technical stores

IV *General*

To act as a *liaison* office between the Head Office of the Consulting Engineers in London and the Departments in India utilising their services

5 These services will not be limited to matters affecting the Central Government and the minor local Governments only but will extend to matters concerning the major local Governments *quasi* public bodies and Indian States provided that they are referred to the Consulting Engineers through a Department of the Central Government This arrangement will, however, not interfere in any way with arrangements which have already been concluded between Messrs Rendel, Palmer and Tritton and any of the latter authorities

6 In return for the services, the firm will receive payment from Government of sums representing the annual estimated cost of operating the branch office This arrangement, which will cover a period of three years in the first instance, will, the Government of India believe, prove of valuable assistance in the efficient operation of the new system of purchase

7 The branch of the Consulting Engineers will be attached to the Indian Stores Department and its relations to the latter will be similar to those of the firm in England to the India Store Department, London, but Departments of the Central Government which are authorized to utilise its services will have free access to it

8 Charges, according to a scale which will be drawn up and published, will be made to the various authorities for the services rendered by the Consulting Engineers on their behalf

9 A procedure to regulate references to the firms will be drawn up by the Indian Stores Department in consultation with Messrs Rendel, Palmer and Tritton and will be communicated to all authorities concerned in due course

NOTIFICATION

No. 3145L., dated Calcutta, the 12th December 1928.—The following report of the Select Committee on the Indian Universities (Bengal Amendment) Bill, 1928, with the Bill as amended by the Committee, is hereby published for general information:—

REPORT OF THE SELECT COMMITTEE ON THE INDIAN UNIVERSITIES (BENGAL AMENDMENT) BILL, 1928.

We, the undersigned members of the Select Committee, to which the Calcutta University Bill, 1927, by Dr Pramathanath Banerjea, was referred, have considered the provisions of the Bill and the following papers relative thereto —

Papers Nos 1 to 11 and letter No L—12—28, dated the 11th August, 1928, from the Secretary, Indian Chamber of Commerce, relating to the Bill

We also considered the Calcutta University Bill of Babu Manmatha Nath Roy

2 We have the honour to submit this our Report with the Bill as amended by us annexed hereto In reprinting the Bill, all changes made by us have, so far as possible, been underlined

3 Before proceeding with the examination of the Bill in detail, we discussed the question of the practical utility of bringing such a measure into operation at present, in view of the far more comprehensive Bill contemplated by the Government for the reorganisation of the University As it will be a considerable time before the proposed Government Bill can be placed before the Council, the majority of us consider that the Bill may be usefully proceeded with in order to reconstruct the Senate on more democratic lines as soon as possible

4 **Long title, preamble and short title.**—The necessary formal alterations have been made to indicate that the Bill amends the Indian Universities Act, 1904, so far as it applies to the University of Calcutta Assam has not been mentioned anywhere in the Bill, the reason being the necessity of avoiding any legal difficulty which might otherwise present itself We have not, however, been unmindful of the interests of Assam as will appear from our observations in regard to clause 7 of the Bill

Clause 1 (2).—The extent clause has been omitted on account of the legal difficulty in regard to Assam, and also because a certain portion of Bengal is within the jurisdiction of the Dacca University

Clause 1 (3).—The date for the coming into operation of the proposed Act has been changed to the 1st January, 1929, in order that elections may be held and nominations made under the Act as early in the year as possible

Clause 2 has been omitted as being unnecessary in view of the formal changes made

Clause 3, which indicates generally the various classes of electorates, has been revised in accordance with our decisions in this respect, the details of which are embodied in our revised clause 7

In the electorate of teachers appointed by the University [which has been substituted for the Professors and Lecturers in clause 3 (*v*) of the Bill] we consider that honorary teachers may suitably be given the power of election, and the words "and paid" have therefore been omitted

The provision in clause 3 (*viii*) of the Bill in regard to the representation of the municipalities and district boards has been omitted, as we do not consider such representation to be justified Members of these bodies have no special qualifications justifying their election as Fellows, nor do these bodies contribute towards the upkeep of the University

As regards the proposal in Babu Manmatha Nath Roy's Bill that there should be an electorate of benefactors and donors, we are of opinion that the present practice of appointing benefactors of the University as Honorary Fellows is appropriate and should be continued If necessary, suitable persons among them may be nominated also as Ordinary Fellows

Electorates of Head Masters and of Head Mistresses of high schools have been substituted for that of graduate teachers in such schools We recommend that it be provided in any subsequent legislation on the subject that the electorates from high schools should cease to function immediately the proposed Board of Secondary Education comes into operation Governing bodies of Colleges, Chambers of Commerce, Literary Associations, and the *ex-officio*, elected and nominated Fellows have been added to the electorates mentioned in the Bill

Clause 4.—A necessary formal alteration has been made in this clause

Clause 4 A.—Sub-clauses (1) and (2) contain formal alterations

In sub-clause (3) the proviso to sub-section (1) of section 5 has been added for the purposes of the proposed alternate *ex-officio* representation of the Principals of the Colleges mentioned in clause 14

Clause 5.—In place of sub section (2) of section 5 (including the proviso) a new provision has been made to enable the Senate, with the approval of the Government, to make necessary changes in the list of *ex-officio* Fellows in Parts I and II of the Schedule

Clause 6 contains a necessary formal amendment

Clause 7.—The proposed sub-section (1a) in section 6 of the Act shows in detail the persons who are to form the various electorates recommended by us We recommend that of the proposed one hundred and eleven Ordinary Fellows eighty-one should be elected and thirty nominated by the Chancellor The details in sub-section (1a) are self-explanatory We have increased the number of nominated members from twenty to thirty because, in our opinion, such increase will enable the Chancellor to supply deficiencies which may impede the proper formation of the different Faculties and to secure the representation of the various educational interests to an adequate extent This will also enable at least five Fellows to be nominated from Assam in addition to the two *ex-officio* Fellows mentioned in the present schedule The majority of us also hope that a sufficient number of Muhammadans will be nominated by the Chancellor so that the total number of Muhammadan members on the Senate, including elected and *ex-officio* members, may be thirty

In the proposed sub-section (1aa) in section 6 to which the majority of us agreed, it has been provided that the reservation of seats for Muhammadans shall terminate at the end of ten years from the date of the reconstitution of the Senate under this Bill

Clause 8.—Clauses 9, 10 and 11 of the Bill have also been dealt with together in this clause In section 7 (2), in the proviso to section 7 (2) and in section 7 (3) the initial fee in respect of the registering of graduates as well as the annual fee has been fixed at "five rupees" instead of "two rupees" as suggested in the Bill In the proviso to section 7 (3) the sum of "fifty rupees" suggested in the Bill has been retained

Clause 12.—The changes made in this clause are merely formal consequential changes

Clause 12 A contains two new sections 11A and 11B relating to casual vacancies and certain transitory provisions providing for the continuance in office of nominated or elected Fellows until the new nominations and elections take effect.

Clause 13 shows the omissions from, and the additions to, the list of *ex officio* offices in the first Schedule proposed by us

The Chief Justice of the High Court, the Lord Bishop of Calcutta, and the Member of the Council of the Governor-General in charge of the Department of Education so rarely attend the meetings of the Senate that it is not considered of any practical utility to retain these offices on the list of *ex-officio* Fellows As regards the Secretary to the Government of Bengal in the Department of Education, it does not seem to be necessary to retain this office on the list as the Member or Minister in charge of the Department of Education, Bengal, is an *ex-officio* Fellow

Ex-Vice-Chancellors resident in India have been included as permanent *ex officio* Fellows

The Principal of the Presidency College, Calcutta, is now included in the list of *ex-officio* Fellows in Part II of the Schedule who are to hold office alternately

As regards the inclusion of Principals in Part II of the Schedule we do not consider it wise to leave the appointment of eminent Principals to the vagaries of election

When the Board of Secondary Education and the Board of Madrasah Education are established we recommend that the Presidents of these two Boards be made *ex-officio* Fellows

For convenience of reference it may be noted that the list of persons who will be permanently *ex-officio* Fellows under our proposed reconstitution of the Senate will be as follows —

His Excellency the Governor of Assam

The Member of the Executive Council of the Governor of Bengal, or the Minister appointed by the Governor to be, in charge of the Department of Education

Every ex-Vice-Chancellor resident in India

The Minister for Education, Assam

The Director of Public Instruction Bengal

The Director of Public Instruction, Assam

The Mayor of the Corporation of Calcutta

The Principal of the Calcutta Madrasah

The Principal of the Bengal Engineering College, Sibpur

The Principal of the Bethune College

The Principal of the David Hare Training College

The Principal of the Islamia College

Clause 14 contains a list of the colleges the Principals of which are to be *ex-officio* Fellows alternately—*see* the proviso to sub-section (*1*) of section 5 in sub-clause (*3*) of clause 4A

It is not considered necessary that the Principals of these colleges should always be *ex-officio* Fellows, but the opportunity will be given to them in turn to present their views to the Senate

5 The Bill was published in the *Calcutta Gazette* on the 29th December, 1927

6 We do not consider that the Bill has been so altered as to require re-publication

7 We recommend that the Bill, as amended by us, be passed

Joint note of dissent by the Hon'ble Nawab Musharruf Hossain, Khan Bahadur, and Messrs. A. J. Dash and H. E. Stapleton and Dr. W. A. Jenkins.

We do not consider that the Bill as amended by the Select Committee should be passed by the Legislative Council and hold this opinion for the following reasons —

1 **Procedure.**—The Bill has been so altered in Select Committee that we feel that it should be again published In particular copies should be forwarded to the University of Calcutta and the Government of Assam and their opinions carefully studied before the Council proceed to take the Bill into consideration

Consultation with the Government of Assam in our opinion seems particularly necessary While the Bengal Legislative Council has full power to legislate for the Calcutta University, it must be remembered that Assam desires to have its educational interests adequately represented on the governing bodies of the University and any alteration in the constitution of the University must necessarily affect Assam Consequently we hold that before legislation in Bengal is undertaken, it is only appropriate that Assam should be fully consulted, and every consideration given to the opinions expressed by the Government of Assam This has not been done in the present case

2 We object to this Bill coming before the Legislative Council now, because Government proposals for reconstituting the whole structure of University Government will shortly be published The passing of the present Bill into law will seriously prejudice the prospect of carrying through the legislation which will be required to effect the very necessary reorganisation of the University We see no force in arguments to the contrary, as it can hardly be expected that a Senate constituted under the present Bill would acquiesce in a revision of their powers and functions

The constitution under the present Bill is not in any way a suitable basis for a more comprehensive scheme of reform

3 Our main objection to the present Bill is that it is an unsatisfactory compromise between conflicting interests In particular we dislike the sacrifice of academic to other interests inevitable when academic jurisdiction is vested in a body constituted for the exercise of general powers We are fully alive to the necessity of increasing Musalman influence in the University and believe that when a readjustment takes place amongst the different authorities which may be created, of the powers now exercised by the Senate, it will be possible to provide adequate scope for all interests without in any way sacrificing academic interests But such a result is necessarily unattainable with an elective Senate exercising the powers now held by that body

---

Note of dissent by Babu Jogindra Chandra Chakravarti, M. L. C.

1 I am not in favour of reservation of seats for Muhammadans as recommended in sub-section (*1a*) in clause 7 Representation on the Senate on a communal basis seems to me to be objectionable on principle

2 I do not agree that the initial fee in respect of the registering of graduates or the annual fee should be five rupees I would retain *two* rupees as the initial fee as well as the annual fee as in the Bill

With these observations, I sign the report

Note of dissent by Babu Jitendralal Bannerjee, M. L. C.

I have two serious objections of principle to the Bill [The Indian Universities (Bengal Amendment) Bill] as it has been modified by the Select Committee. *first*, the qualified recognition that has been extended to the principle of communal representation in the election of fellows, and *secondly* the number and variety of small, pocket constituencies which the Bill seeks to create, and where the field of selection is further narrowed by the ear-marking of a specified number of seat for the graduates in the different faculties

2 So far as the second is concerned, let me point out some of the anomalies that are sure to result from the adoption of the scheme recommended by the Select Committee.—

(1) The Select Committee recommend that, out of the total number of elected fellows, 12 shall be elected (from among themselves) by the teachers appointed by the University and 15 by the teachers in affiliated colleges The injustice of this unequal distribution is patent on the face of it The University teachers form a small and compact body, numbering not more than 150, while the college teachers scattered all over Bengal, number at least 1,000, and yet these 1,000 teachers will return practically the same number of fellows as the 150 University teachers The college teachers are men possessing the same qualifications, and, in the existing state of things, doing practically the same kind of work as the University teachers, and yet the latter are accorded a representation more than five times in excess of the representation granted to the former I can see no justice behind the arrangement, and no reason for it beyond the desire—so obvious in some quarters of controlling the Senate by the members of the post-graduate department

3 Again, just as the representation accorded to the post-graduate department is in excess of its fair share, equally noticeable is the excessive representation granted to the graduates in the medical faculty Leaving aside the Faculty of Engineering, the number of graduates in the medical faculty is the fewest in any of the faculties, certainly fewer than the number of graduates in the Faculty of Law and far, far fewer than the number of graduates in Arts And yet, where election upon a faculty basis is concerned, the number of representatives allotted to the medical graduates is in excess of the numbers allotted to the Law and Arts graduates Thus of the 23 fellows to be elected on the faculty basis (12 from the registered graduates of the Calcutta constituency and 11 from the teachers in affiliated colleges), so many as 6 are required to be medical graduates while Arts graduates are 5 and the Law graduates only 4

4 Again, there is no justification why two seats or any should be allotted to the members of the Bengal Legislative Council, except that the generous members of the Select Committee may have thought it necessary to provide seats for certain gentlemen who might otherwise find none In this connection one should like to know whether the British Parliament as such has the privilege of electing any representative to the Senate or governing body of any of the British universities

5 And just as there is no reason why any seat should be assigned to the Bengal Legislative Council, so there is no reason why any seat should be assigned to the different Chambers of Commerce The Bengal Chamber of Commerce (which is the most influential of these bodies) does not seem to be at all keen upon this point, and on principle there is no reason why the commercial (of all interests) should be singled out for special representation on the Senate In fact the only intelligible motive behind this infinite splitting up of constituencies seems to be a very natural and understandable desire to provide a constituency for every one who is anxious to have a seat on the Senate

6 On a point of detail, I hold that an injustice has been done to the mufassal in the distribution of the representatives of registered graduates as between Calcutta and mufassal Instead of allotting 15 to Calcutta and 10 to the mufassal, the proportion should have been just the reverse—10 to Calcutta and 15 to the 5 mufassal divisions

Speaking for myself, I should like to have two broad, general constituencies one, Academic, and one, non-Academic for the election of fellows to the Senate The first should consist wholly of teachers (college and University teachers both) and furnish the academic wing of the Senate while the second should consist of (*a*) registered graduates, (*b*) members of the Legislative Council, (*c*) members of municipalities and district boards, (*d*) school teachers of a recognised status say five years' standing or so, and (*e*) members of the governing bodies of colleges This second wing of the Senate would, broadly speaking, represent the guardians and tax-payers of the country—a body which, I hold, is fully entitled to have an effective voice in the deliberations of the Senate It may be objected against this second body that it will be too cumbrous and unwieldy But that difficulty can be easily avoided by having the election from this body upon a regional or divisional basis—Calcutta ranking as a division, and the number of seats allotted to each division being in proportion to the numerical strength of the electorate in that division I would further suggest that all elections from this constituency may be under the system of proportional representation by the single transferable vote This by allowing Muhammadan electors to plump their votes upon Muhammadan candidates, would secure an adequate Muhammadan element in the Senate

As for election upon a communal basis, I regard it as an unmitigated evil—evil everywhere, and specially and glaringly so in an academic and educational body like the Senate It is a matter of infinite regret that our Muhammadan brothers should be so keen upon the point I can well sympathise with their desire for an "adequate and effective" Muhammadan representation upon the Senate But I

submit that the same end could be equally well served by adopting the method of "proportional election by the single transferable vote" so far as elections on a regional basis are concerned

Subject to the above observations, I have pleasure in signing the report of the Select Committee

Note of dissent by Dr. Bidhan Chandra Roy, M. L. C.

I sign this report subject to the following note of dissent —

2 On behalf of the Congress party to which I belong I enter my emphatic protest against my acceptance of the principle of communal representation in University matters, where proficiency in one of the branches of knowledge should be the only qualification for admission No University in India except Dacca has accepted this principle in spite of the findings of the Sadler Commission I am free to admit that if communal protection is to be guaranteed in any association, it is best that the members from the community should be elected by a joint electorate rather than nominated by the Government From that point of view it is satisfactory that the period during which reservation of seats will be guaranteed is limited to nine years from the date of the passing of the Bill

3 While the whole department of education is supposed to have been transferred to a popular minister, nomination to the University Senate, if any, should be made by a Chancellor who has nothing to do with the administration of any of the departments of Government

4 The mere alteration in the composition of the Senate will not, to my mind, reform the University, but in future a comprehensive Bill affecting the University which the Government might bring forward should and ought to be considered not by a Senate as at present constituted but by one whose composition is more democratic It is in that view that I support this Bill

---

Note of dissent by Mr. F. E. James, M. L. C.

I sign the above report subject to the view which I expressed more than once in Select Committee, viz that the Senate as constituted by this Bill will be too unwieldy for a body which at present is charged with so much executive and administrative work I do not consider that the total number of the Senate should exceed 100, though I admit the difficulty of satisfying within this figure the claims of all the academic, sectional, professional, communal, official and non-official interests, which were, at times, pressed to the detriment of the main structure of the Bill

---

Note of dissent by Dr. Pramathanath Banerjea, M. L. C., and Dr. Sir Deva Prasad Sarvadhikary, M. L. C.

We sign the report subject to the following note of dissent —

In our opinion, communal representation on the governing body of an educational institution like the Calcutta University is unsound in principle We admit that the reservation of seats for a community is open to less serious objection than a scheme of separate electorates and the suggestion of the Select Committee that the reservation will terminate at the end of ten years is a sincere attempt to limit the duration of the evil But as we are convinced that it is undesirable to make religion a basis for the constitution of the Senate, we are unable to assent to the proposals contained in section 7 of the Bill, as amended by the Select Committee, for the representation of Muhammadans

---

Note of dissent by Babu Bejoy Krishna Bose, M.L.C.

I am strongly opposed to communal representation in any form as retarding the growth of the nation Such a representation by reservation of seats even for a limited period in the field of *Education* is vicious in principle, and I beg to dissent from the report so far as that aspect of it is concerned Educated Indians should be left to make their free choice unhampered by any consideration other than academic qualifications

Though I do not quite agree on some other minor points, I do not wish to write a separate note on them but reserve my observations

Note of dissent by Maulvi Abul Kasem, M.L.C.

I am of opinion that there should be 125 ordinary fellows of whom 90 should be elected and 35 nominated by His Excellency the Chancellor

2 The Chief Justice of the Calcutta High Court and the Principals of the Presidency and Sanskrit Colleges should be permanently *ex officio* fellows

The Chief Justice of the Calcutta High Court is the head of the Judiciary in Bengal, and as such should have a permanent place on the Senate of the University

The Presidency College is the premier College of Bengal and the Principal of that College should always be a member of the Senate The Sanskrit College is not an ordinary first grade College, but an institution which along with other subjects provides special facilities for the study and research of an important Oriental classical language and philosophy, and the Principal of that College is always wanted in the Senate The idea of the majority was that these two Principals would be nominated by the Chancellor, but in my opinion the Chancellor's nominations should be used for the purpose mentioned in clause 7 of our Report and not for rectifying defective legislation

3 In clause 7 of the Bill sub-section (*1a*) of section 6, in the list of electorates the following should be added, each electing 1 ordinary fellow —

(1) Muhammadan Literary Society of Calcutta

(2) Bangiya Muslim Shahitya Parishad

4 In clause 7, clause (*2*) (*a*) of sub-section (*1a*) of section 6 at least 2 shall be Muslims In clause (*4*) of sub-section (*1a*) of section 6 the number should be 8, of whom at least 4 shall be Muslims and the electorate shall include assistant headmasters as well In clause (*6*) of sub-section (*1a*) of section 6 the number should be 7, of whom at least 3 shall be Muslims

In clause (*7*) of sub-section (*1a*) of section 6 of the 2 members to be elected by the Legislative Council, one shall be a Muslim

In clause (*13*) of sub-section (*1a*) of section 6 the number should be 12, of whom 4 shall be Muslims

5 The managing committees of high schools affiliated to the University should elect 2 ordinary fellows, each managing committee having one vote

6 In clause 7 sub-section (*1aa*) should be omitted I would hope that a sufficient number of Muslims will be nominated by the Chancellor, so that the total number of Muslim members on the Senate including elected and *ex officio* members may be 40 per cent of the ordinary fellows

7 I would further suggest that provision should be made in the Statute or the Rules wherever convenient by which a certain proportion of the ordinary fellows should vacate their offices every year and their places filled up by nomination or election as the case may be, so that there may not be an entire change in the personnel of the Senate at one time

---

Note of dissent by Mr. S. C. Bose, M.L.C.

There are just a few matters in the above report, in regard to which I hold somewhat different views, and I am afraid, therefore, I must express my dissent

Clause 3.—As regards (*e*) (*iv*) of clause 3, I am of opinion that the electorate should not be restricted to head masters and to head mistresses of high schools but should be extented to graduate teachers of such schools

Clause 7.—I am of opinion that—

(*1*) instead of the provision in sub-section (*1a*) that "the number of ordinary fellows shall not exceed one hundred and eleven" the provision that 'the number of ordinary fellows shall not exceed one hundred and twenty' should be substituted

(*2*) that instead of the provision in sub-section (*1a*) (*4*) that 'six shall be elected from their own number by head masters in high schools' the provision that 'fifteen shall be elected from their own number by graduate teachers of high schools" should be substituted, and

(*3*) in the place of the expression 'Head mistresses' in sub-section (*1a*) (*5*) the expression "graduate teachers" should be substituted

It is not possible for me to reconcile myself to the principle (if it can be called one) of reservation of seats for any particular community in the constitution of a University But for reasons into which it is unnecessary for me to enter here, I shall refrain from striking a wholly discordant note I shall only support that in the proposed sub-section (*1aa*) in the place of the expression "ten years," the expression "five years" be substituted

Note of Dissent by Mr. A. K. Fazl-ul Huq, M.L.C.

I strongly oppose the insertion of sub-section (*1aa*) in clause 7, recommending the termination of the provisions for the reservation of seats for **Muhammadans** automatically at the end of ten years In my opinion, the provision for reservation of seats for Muhammadans should not be taken away until and unless the Muhammadan community make it clearly manifest that these provisions are no longer wanted

I am also of opinion that the provisions for the representation of Muhammadans are extremely inadequate and should be at least double of what has been provided in the Bill Further it should be made clear that the figures suggested for Muhammadan representation are to be the minimum and that it should be open to Muhammadans to participate in the election of the members other than those representing the Muhammadan community

---

Note of Dissent by Babu Manmathanath Roy, M.L.C.

I regret I have to differ from my Colleagues in the following respects —

(*i*) The alternate *ex-officio* representation of Principals of Colleges is wrong on principle It is a most mechanical method wholly unsuited to the constitution of the Senate The Principals of Colleges should form a separate electorate which will elect, say eighteen Fellows (the same number as is proposed in the amended Bill) The Principals should have the right to select those amongst them who are most suited to represent them Any apprehension of the vagaries of election is unfounded, is inconsistent with the policy of the Bill and would be an unfair and unmerited reflection on the whole body of Principals The electorate would be a very small one which would return half its number and there need be no apprehension that the most eminent among them will be left out The Principals may certainly be trusted with the franchise which has been given to the other electorates

(*ii*) The District Boards and the Municipalities should be given the right of representation It would be wrong to ignore the general public interested in education The Bill aims at the democratic ideal needed to raise the University to a great national institution thoroughly representative of public opinion in the country

(*iii*) The fee for registered graduates should be two rupees, as originally proposed in the Bill The amount of fee should not deter graduates from exercising their right of representation

(*iv*) It would not be fair to the graduate teachers in high schools to restrict the franchise to the head masters The graduate teachers in schools form an important body by themselves whose interests are not always identical with the interests of the head masters, and in constituting the Senate, it would be wrong to ignore the interests of the graduate teachers other than the head master

(*v*) The number of nominated members should not exceed twenty five After the various electorates have made their choice to secure the representation of the different interests there will hardly be any necessity for the nomination of an unduly large number of members

(*vi*) The Presidents of the Post Graduate Councils occupy such an important position in the higher teaching in the University that they should always be *ex-officio* members of the Senate

(*vii*) The reservation of as many as eight seats for Professors out of a total of twelve to be returned by the University teachers would be unfair to the teachers who are not Professors and who form by far the large majority in the electorate

CALCUTTA, THE 13TH DECEMBER 1928

RESOLUTION—No 20043 L R

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency for the year 1927-28.

Mr K C. De C I E held the office of the Member, Board of Revenue, from the beginning of the year under report till the 25th January 1928, when he was succeeded by Mr J N Gupta, C I E, M B E, who remained in charge of the office during the rest of the year

2 The year was not free from natural calamities In the Contai subdivision of the district of Midnapore the winter crop over a considerable area was destroyed by floods Portions of the districts of Chittagong and Noakhali also suffered from severe storms Later in the year parts of the districts of Burdwan, Birbhum, Bankura, Murshidabad, Nadia, Malda and Dinajpur suffered from deficient rainfall, resulting in failure of winter crops which has caused acute distress, particularly to the cultivating classes and the landless labourers To meet the situation, relief operations were started by the District Boards concerned with their own funds, supplemented by advances from Government Land improvement and agriculturists' loans amounting to Rs 4,19,218 were also distributed according to requirements Besides, various relief committees were organised to help the affected people Government supplemented the resources of these bodies by allotting money for gratuitous relief But most of these measures were undertaken in the current year 1928-29

Barring a temporary fall in the areas affected by the failure of the winter crop, the rates of wages for labour continued generally to rule high Landless middle class people with fixed incomes continued to suffer from high prices and dearth of employment for intellectual labour Malaria, kala-azar, cholera and small-pox were as in previous years, prevalent in most of the districts It is, however, a gratifying feature that there has been an awakening of the people themselves to the importance of improving the public health

3 The depression of the coal industry continued, and the condition of the iron industry became unfavourable during the year Cotton, jute and rice mills fared well, and the year was a fairly prosperous one for tea The weaving industry, which is the most important home industry of the Presidency, was on the whole carried on satisfactorily During the year, the Port of Chittagong was converted into a major port and its control transferred to the Imperial Government Motor-buses and taxis were introduced in large numbers in all the districts of the Presidency, thus facilitating communication with the interior

There were no labour troubles except in the district of Howrah the most important of which was the strike of the East Indian Railway Workshop employees at Lillooah which started in the beginning of March and continued after the close of the year The number of co-operative societies in the province continued to increase and exercise an indirect influence in lowering the rate of interest charged by private moneylenders

4 There was a fall in the demand of land revenue in the permanently-settled estates from Rs 2,15 71,482 to Rs 2,15 67,732, but the temporarily-settled estates and estates under direct management showed an increase of Rs 2,28 113 Collection suffered to some extent on account of distress in several districts, and the Sale Law was administered with moderation Only 8 65 per cent of the defaults actually came to sale

5 The percentage of cost of management on the current demand was 10 55 and a sum of Rs 2,12,468, representing 3 9 per cent of the current demand, was spent on agricultural, sanitary and miscellaneous improvements The scheme by which Sub-Deputy Collectors in charge of certain khas mahals were replaced by settlement kanungos is reported to be working well It is satisfactory to note that both the number of schools in Government estates and the pupils attending them are on the increase from year to year

6 The colonization scheme in the Bakarganj Sunderbans, which covers an area of 163 square miles comprised in 22 estates, was in its 21st year and is likely to be completed within a year or two The total expenditure incurred by Government for the reclamation of the area and the total receipts derived therefrom up to the end of the year under review were Rs 14,53,878 and Rs 18,72,100, respectively, resulting in a net profit of Rs 4,18,222 The number of primary schools and pupils in the colonization area shows a steady increase, and a scheme has recently been evolved with the approval of Government to encourage primary education in the area

The Governor in Council has noticed with regret the local officers' gloomy description of the colonists, specially of the Bengali settlers, who through indolence and improvidence are fast selling their holdings In the Bengal Tenancy Amendment Bill, just passed by the Legislative Council, provision has been made for the extension of the protection afforded by section 49A of the present Act to such areas in the Sunderbans as may be considered necessary

7 The colonization scheme in the 24-Parganas Sunderbans, which was in its 13th year, made fair progress during the year In order to protect the Santhal tenants from money-lenders and middlemen, the provisions of Chapter VIIA of the Bengal Tenancy Act have been made applicable to them Steps are also being taken for the organization of rural co-operative banks amongst them

8 The most common causes of friction between the landlords and their tenants were, as in previous years, enhancement of rents exaction of abwabs, levy of interest on arrear rents and mismanagement by the local agents of absentee landlords

9 The special provisions of the Bengal Tenancy Act, imposing restrictions on the alienation of land by aboriginals, were extended during the year to certain aboriginal tribes in the districts of Birbhum, Bankura, Malda, the 24-Parganas and Murshidabad

10 The thanks of the Governor in Council are due to the Board of Revenue for the efficient administration of the branches of work under it

By order of the Governor in Council,
